Step 22: Improve the Workbook

1. Hide unused fields.
2. Use an Extract for the dataset.
3. Refresh/regenerate the extract.
4. Remove unnecessary calculations.
5. Keep the dashboard at a suitable fixed size, such as:
   - 1366 × 768, or
   - 1920 × 1080.
6. Save the final workbook.
